

**Australian Government**

**Department of the Environment, Water, Heritage and the Arts**

Mr Bernie Bugdalski  
Director  
Product and Project Development  
Fujitsu General (Aust) Pty Limited  
PO Box 6504  
BLACKTOWN NSW 2148

Dear Mr Bugdalski

Congratulations, I am pleased to inform you that the Fujitsu General (Aust) air conditioner, model number **ASTB09LDC/AOTS09LDC** has been assessed as being the most efficient air conditioning unit as at 30 November 2007.

As you would be aware, the Department of the Environment, Water, Heritage and the Arts has sponsored an award as part of the COOLworld Industry Awards 2008. The award is for the 'Most Efficient Air Conditioning Unit as at 30 November 2007', and will be presented at the COOLworld Industry Awards dinner on Monday 21 April 2008.

The criteria for this award is that the air conditioning unit must be:

- registered for MEPS and Energy Rating Labelling on or before 30 November 2007;
- available in the marketplace;
- single phase;
- air to air cooled (ie not water cooled); and
- non ducted.

This product has been tested on behalf of the Department, and meets all requirements. I have attached complimentary copies of the check test reports which confirm this product's performance, which you may like to use in promoting this product.

I look forward to seeing you at the awards dinner, where you may wish to nominate a representative from your company to accept the award.

Yours sincerely

Shane Holt  
Director  
Appliance Energy Efficiency Team

14 April 2008
