## **Fujitsu General America Introduces Mini-Splits that work with the Google Assistant**

Fujitsu General America announces new mini-split compatibility with the Google Assistant.

The company's Halcyon line of heating and cooling products now features voice-activated control through the Google Assistant on smart speakers, like the Google Home, if the mini-split has built-in Wi-Fi, or if Fujitsu's Wi-Fi device is installed.

When setup of the Fujitsu FGLAir app is complete, users can control up to 13 different functions using the Google Assistant, including on/off operation, increasing and decreasing temperature, changing operating modes, requesting the current temperature setting, and more.

The entire setup process is quick and easy through Fujitsu's FGLAir app. Because the Google Assistant runs through the app, there is no loss of inverter efficiency.

For more information on the Fujitsu General's compatible equipment with the Google Assistant, please visit [www.fujitsugeneral.com](http://www.fujitsugeneral.com)
