Fujitsu Opens New Warehouse in New Jersey

Fujitsu General America recently opened a new warehouse in Piscataway, NJ, making Fujitsu even easier to do business with.

At 155,000 square-feet, the brand new facility more than doubles Fujitsu's capacity in the Northeast to better serve its distributors and promote continued growth in this market. All product lines will be stocked at the facility, including Halcyon, Airstage and Unitary equipment.

For more information, contact a local Fujitsu representative, or visit www.FujitsuGeneral.com
